A number of our exchanges are complaining about the arrival of that awful pest, the 17-year locusts. So far we have heard no complaint from the people of this county, but of course this periodical cleads is liable to call upon us at any old time, and when they do arrive, we will surely know that they are here. We hope these noisy little brats, which caused so much havoc way back in the time of Pharaoh, and on several occasions since that time, will decide not to visit this section of the earth this season.

An Easy Trip Through Yellowstone Park

What can wipe out the weariness of a hard winter like a good vacation trip? And nowhere else in all the world are there so many curious and awe-inspiring sights as in Yellowstone National Park.

The journey to the entrance itself via the Burlington Route is full of pleasure and once inside, you are in a world of wonders. Your tour of the Park may be made by stage-coach with stops at perfectly appointed hotels, or if you care for tent life you can spend a glorious week in camping out. Day after day is filled with eye-delighting geysers, mountain vistas that stretch to heaven, rocks the color of a sunset, and strange tumbling rivers that plunge thousands of feet in thundering falls. You will come home made over in mind and body.

Your trip will be all the more enjoyable if you will let me help you plan it and get your copy of our folder. Begin your plans early. Come in and talk over the trip you want to take, or write W. A. Labor, Gen'l. Passenger Agent, St. Louis—a postal will do.
